50 DAYS TO GO Quality Improvement

Designing a Collaborative Service Robot for Eldercare Facilities

The residents of Normanna along with staff and family members were invited to attend a presentation to be a part of the research focus group where their input and suggestions on how a robotic technology can best assist residents in everyday life.

Normanna has been chosen as the home for this pilot project, where information received from the participants is inputted into Aether the robot, the researchers will return and trial the success of the newly programmed robot

Family

CORNER

*Resident & Family Council Meeting
Tuesday, October 9, 3:30, Ostheim Dining
Room*

Keeping up-to-date with your immunizations is an important step to staying healthy as you get older.

The most effective way to prevent the spread of influenza is by getting a flu shot and washing your hands regularly. If you don't get a flu shot, you will be expected to protect our residents by wearing a mask while you are in a health care facility during flu season

QUOTES OF THE MONTH

*It does not matter how slowly you go,
as long as you do not stop.*

Confucius
